

RINGWORM—CERTIFICATE OF NON-CONTAGIOUSNESS

This certificate must accompany the horse to the racecourse and be presented to the BHA Veterinary Officer

Name of Horse: Microchip Number:

Name of Trainer: Location of Examination:

Please select either Section A OR Section B, AND/OR Section C:

Section A—valid for 14 days from date of examination

I have examined the above identified horse on.....(date). I am satisfied that the dermatitis present is not contagious to other equines.

I have diagnosed this dermatitis as

Section B—valid for 14 days from date of result—please attach result to VO29

On.....(date) I examined the above horse and submitted a skin scraping/hair sample to my practice lab/a commercial lab/AHT for fungal culture/microscopy/PCR with a negative result for ringworm (delete as appropriate).

Section C—valid for 14 days from date of re-examination

I have examined the above horse on..... (date) and am satisfied that:

(i) the horse has been treated with starting on..... (date) in accordance with the manufacturer’s instructions, which has a UK product licence for the treatment of ringworm;

AND

(ii) there is no evidence of active ringworm.

Signature of Veterinary Surgeon:.....
